Claims 18, 19, 22 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Each of these claims recites "G<sub>0,1,2</sub>". It is not clear to the examiner what this terminology means. For the purpose of this office action, it is assumed that there may be 0, 1 or 2 G moieties attached to the AR moiety.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 18 is rejected under 35 U.S.C. 102(b) as being anticipated by Beilstein Registry #7031474 and 7917391.

Each of the Beilstein references disclose organic compounds meeting the limitations of the rejected claim.

Claim 19 is rejected under 35 U.S.C. 102(b) as being anticipated by Beilstein Registry #2010758 and 2171800.

Each of the Beilstein compounds meets the structural limitations of the rejected claim.

Claims 20, 21 and 24-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
